# AMDOR **luma<sup>®</sup>bar<sup>®</sup>**

## **Luma Bar<sup>®</sup> Stand Alone**

The Luma Bar<sup>®</sup> product that revolutionized compartment lighting. Encased in a high impact polycarbonate enclosure and a full length aluminum extrusion. Includes Luma Bar's patented variable aiming system. Available in standard or custom lengths.

## **Luma Bar<sup>®</sup> Integral**

With all the features and benefits of our Stand Alone series, the Integral was designed to snap into the side frame of your AMDOR roll-up door to deliver seamless integration and an unsurpassed level of protection.

## **Luma Bar<sup>®</sup> H20**

Designed to withstand full water submersion, the H20 is ideally suited for any exterior application. When combined with one of our optional full length aluminum extrusions the H20 is the most effective ground light on the market. Available in 12", 20" and 40" models.

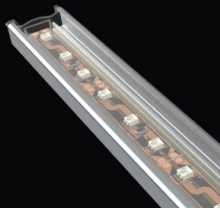

## **Luma Bar<sup>®</sup> SuperBright**

Designed for Pump Panel application, the tightly focused beam pattern provides uniform illumination and is ideal for any application that requires a high level of visibility. Available in a 20" sealed aluminum enclosure.

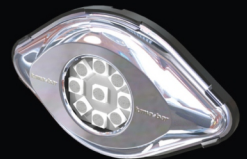

## **Luma Bar<sup>®</sup> Pathfinder**

The Pathfinder delivers a continuous illuminated walkway for aerial applications. The lighting assembly is supplied with a full length aluminum mounting extrusion and a high impact polycarbonate lens. The assembly is UV and ozone stable to prevent yellowing over time. Available in a variety of colors and lengths to suit nearly any aerial application.

## **Luma Bar<sup>®</sup> ALS**

Ideal for any application requiring a high output light source in a small package. This fully submersible assembly offers a number of customizable options including light colors, diffusers, and black or chrome bezels. The ALS provides you the ability to design a custom light to suit your particular application.

Most products available in white and red. Custom colors available.  
All products feature our patent pending onboard resettable fuse for surge protection.
